To Whom It May Concern,

I am pleased to recommend Ekaterina Jarkova for any frontend development role. Over the past 1 year and 3 months at Ambition Group, Ekaterina worked as a Frontend Developer, focusing primarily on Next.js and React. During this time, she consistently demonstrated the ability to tackle challenging technical problems and contributed significantly to improving the company's business processes.

Ekaterina excelled in key areas such as integrating Redux and React Admin, two of the more complex technologies we worked with. Her hands-on involvement in design improvements, as well as her active collaboration across teams, proved valuable in driving our projects forward.

Her technical stack includes Next.js, React, Redux, TypeScript, and other modern frontend technologies. She consistently delivered clean, efficient code while maintaining a strong focus on project goals and team cooperation.

Ekaterina's contributions have made a lasting impact on our team, and I'm confident she will bring the same level of expertise and dedication to her next role.

Sincerely,
Nikita Khachirovi
